

## IANTD Advanced Recreational Trimix Diver Course Information

The IANTD Advanced Recreational Trimix Diver course is designed to extend the knowledge and skills gained from EANx sport diving, as well as to introduce the new skills required for technical diving and the use of Recreational Trimix.

### Qualification

Upon certification, you will be qualified to dive to 48msw using EANx or Recreational Trimix. You will also be qualified to perform limited decompression using EANx mixtures up to and including 100% Oxygen to a maximum PO<sub>2</sub> of 1.50ATA.

### Prerequisites

You should hold an EANx Diver qualification and a Deep Diver qualification or sufficient experience to satisfy us that you can continue at this level of training. You should be comfortable in the water and have competence completing basic diving skills (mask skills, DSMB deployment etc.).

### Equipment Requirements

You will be provided with the IANTD Advanced Recreational Trimix Diver Student Kit, including tables for dive planning. In addition you will need the following equipment: Manifoldd twin set (in test & oxygen service), primary and back up regulators, primary buoyancy device, dive computer / depth timer, basic dive kit (inc. SMB & Reel / Spool and a slate or notebook) and a decompression stage cylinder and regulator (both in oxygen service). We recommend aluminium stage cylinders, and these can be provided for the course if required.

### Course Structure

The IANTD Advanced Recreational Trimix Diver course runs over 4 days. Day 1 is spent in the classroom where you will complete theory sessions, classroom practical problems and equipment workshops. Day 2 is spent at the dive site completing confined water and skills dives. This is a chance to make tweaks and adjustments on your skills and equipment following the previous day's sessions. Days 3 and 4 are spent completing training dives, including accelerated decompression. During these days you will be using Recreational Trimix and EANx deco gases.

Courses can be structured to run consecutively over 4 days, or split over a number of sessions.

### Costs

The IANTD Advanced Recreational Trimix Diver course is £400.00 per person. This price includes the training and materials outlined above. Certification costs are also included (providing certification criteria are met).

The following are not included in the course fee: Dive Site costs (inc. entry, accommodation, food, travel etc.), Gas and Sofnolime (if appropriate).

### Evaluation / Assessment

Evaluation on the IANTD Advanced Recreational Trimix Diver course is continuous. Throughout the training days you will be assessed on your skills, performance and attitude. You will also complete a multi-choice exam during the course.

With IANTD *"Training is purchased, Certification is earned"*, meaning that you must meet the certification requirements and standards before it is issued. Extra training days can be added if needed.

### What Should I Do Next?

If you are interested in attending an IANTD Advanced Recreational Trimix Diver course then please get in touch and we will provide you with our next course dates and a booking form.

Once you have completed the IANTD Advanced Recreational Trimix Diver course you will be able to work towards the IANTD Normoxic Trimix Diver course.

### Important Information

All training prices are quoted for base timescales of training. If further training is required to meet the requirements of certification, this will incur additional costs and will be arranged on a specific basis. Unless stated, all prices include the appropriate IANTD Student Pack and Certification. They do not include any dive site expenses, gas, equipment hire, accommodation and / or travel.

All prices shown are list prices only. Actual price will be confirmed at time of booking. Discounts for group bookings are available. We reserve the right to alter or amend advertised prices at any time. This document is not an offer of sale or contract. E&OE.
